

WMI DEALER NEWS

WHITE MOUNTAIN IMAGING

November 5, 2019

News & Notes

WMI Dealer Portal

The Dealer Portal has now been added as an additional feature to our WMI website. The portal will allow dealers instant access to both sales and service information. This will include service bulletins, downloads and eventually, product manuals. On the sales side you can find current and past dealer newsletters and information on special product offers.

Getting started is easy! Go to our website and click on Dealer then Dealer Portal Registration or just double click the link on this page: <https://whitemountainimaging.com/dealer-registration/>

You will then be asked to fill in your contact information and to pick a password. Once you receive an approval email back from us you will be all set to get more information from our site. Should you ever forget your password or just need to reset it, it can all be done automatically from our site.

Visit Us at RSNA Booth Number #3700

If you are coming to Chicago don't forget to allow a little extra time to visit our booth. We'll have hands on demonstrations of the Fuji AQRO portable which has been getting rave reviews for its flexibility, nimbleness and outstanding image quality.

We will also be joined by the principals of Efferent, our PACS partner. Stop by and find out first-hand why eVUE is the most cost effective and scalable PACS solution on the market. We'd be happy to give you a demo. In a few short minutes you'll find out what many of our dealers already know: eVUE is the one PACS solution your customer will never outgrow.

Last, but not least, you will be able to preview and discuss our growing Assurance X-ray Equipment product line, which now includes complete imaging solutions for each market segment.

As always, we look forward to serving your analog and digital imaging needs.

Don't forget to visit our updated website: www.wmi-t2.com to see all of our Fuji products.
