TO: WMI Authorized Dealers

FROM: White Mountain Imaging, Technical Support

DATE: 9.29.2011

SUBJECT: Stitching for FCR Prima IIP

Product: FCR PRIMA IIP

Symptom: How to: Image Stitching

Resolution:

Stitching Images On the FCR Prima IIP

- 1. Register study and choose Exposure (ex: Whole Leg or Whole Spine)
- 2. Start study and run Imaging Plates
 - **a.** Because there is no Bar Code Reader you must be sure to run plates in the correct order

- **3.** After last plate is complete click on first exposure and you will see the "image stitching" icon light up.
- 4. Click the "Image Stitching" icon
