

NEW!

A Super-Affordable Way to Go Digital.

Wouldn't it be great to step up to the benefits of a full digital X-ray room— and say goodbye to x-ray film, harsh chemicals, darkrooms or the extra processing steps of CR?

Now you can – easily and economically!

Meet the new Focus 35C Detector, powered by advanced Image Suite Software. For a surprisingly low purchase price, it delivers the productivity power of wireless operation, and the image quality only DR technology can provide. Best of all, the Focus Detector slides right into your existing analog equipment – protecting your current investment.

Get all of these great benefits.

- The power of full digital X-ray at a manageable cost.
- The superb diagnostic confidence that comes with DR image quality.
- Wireless design to speed workflow, and help minimize the infection risks and trip hazards of cables.
- Image Suite V4 Software's easy-to-use, intuitive interface.
- Optional tablet-viewing capability and Mini-PACS module.
- Bundle with CARESTREAM DRYVIEW Laser Imagers for your printing needs.

Go Digital – because NOW you can afford to!
